Veinlite LED+[®]

Our Best Device for Finding and Accessing Veins

Veinlite LED+ is the ultimate vein finding and access device in the market. A larger field of view with brighter LEDs provide superb contrast for vein imaging. The wide C-shaped design helps to stretch the skin and anchor the vein during vein access.

- Clinically proven Veinlite[®] technology*
- Meets INS and CDC Guidelines for infection control
- 65% larger area of illumination
- 100% brighter for better vein visualization
- FDA and CE registered

BENEFITS

- Fewer IV access failures
- Fewer needle sticks
- Improved patient satisfaction
- Less wasted supplies
- Rechargeable

TransLite, LLC Veinlite[®] Transilluminators
